

Noryn Aziz

Noryn Aziz has an elegant, shining personality with an exotic physical sheen. Regarded as a singer's singer by Malaysian professional circle. Couple with good looks and a radiant personality, this soulful songstress never fail to charm her audience at all of her performances.

A classically trained singer, a qualified vocal coach, a natural lyricist and songwriter, has made the R&B/jazz genres her forte with her powerfully weightless voice and blinding, exuberant live persona. Inspired by Ella Fitzgerald, Rachelle Farrelle, Jill Scott and Erykah Badu, Malaysian-born Noryn Aziz is set to reach glorious heights as she comes of age as an original singer/songwriter after a decade of vocalizing standard.

She embodies a new breed of modern vocalist in this style, heartfelt and true with their passion for jazz yet equally adept in contemporary / pop sphere. One of the trademarks of Noryn's live show is the way she blends her expressive music with an admirable technical proficiency and vocal range.

Already a veteran on the international stage in her 20s, and a staple among older artistes and co-billers, it is her warm, age-old voice that draws in a universal acquaintance. The perfect captured moment of this defining element of Noryn's persona was her memorable slot at the International Java Jazz Fest in Jakarta in March: legends and heavyweights from Patti Austin, Tania Maria and Bob James Quintet to Tower of Power, Incognito and the Brand New Heavies tipped their hats to sing a small mention of praise and recognition for their young fellow performer.

A familiar face at the local Sunrise Jazz Festival for the past six years in a row, Noryn's versatility and demand traverses styles, status and degrees of exclusivity, meaning she could headline Sunrise - the creme de la creme of annual jazz jams - one night, a Tatler gala shindig the next, motor shows and the Kuala Lumpur Fashion Week a week later.

If it's a big night to remember with oodles at stake, Noryn delivers. For the best of them, she's always been a name to call, and with the release of her debut album will be a big name in her own terms.

Bio & Background Info
